The Right Solution

Cd-Tab is a simple to use Chlorine Dioxide Solution.

One tablet placed in water dissolves to produce a Chlorine Dioxide Solution for the spraying down of surfaces.

Step 1 Drop 1 CD-Tab into 1 litre of water

Step 2 Spray on to sterilise surface

Step 3 Wipe off and store remainder for use later.

CD-Tab makes a PH neutral solution, which is easy on materials. It can be stored for up to a week in a spray bottle once made.

CD-Tab is very cost effective, simple to use and a highly effective surface sterilant.
