PrimaTec 'Equipment Sterilisation' Service

WOULD YOU BE INTERESTED IN AN ON-SITE PROFESSIONALLY MANAGED STERILISATION SERVICE?

"PrimaTec is now able to offer an on-site room and equipment sterilisation service. If you have a requirement to regularly (i.e. weekly / fortnightly) sterilise equipment within your facility, this service could provide the solution to maintaining a cleaner facility with a higher health status."

The service is cost effective against purchasing, operating and maintaining equipment, and could be used in many areas across your organisation!

Whilst providing you with a more cost effective solution there are many other benefits of our on-site managed service.

'No requirement to purchase outright, operate or maintain sterilisation equipment'

'Service managed by trained and experienced staff for optimum health and safety'

'Keeps your own staff available for other necessary procedures'

'No requirement to purchase a sterilisation chamber as existing rooms can be utilised'

'Minimal downtime of equipment and facility (avg. cycle is 4 hours)'

Using the PrimaTec 'Equipment Sterilisation' Service it has never been easier or more cost effective to maintain the health status of your facility!

What could it be used for?

- › Complete IVC racks
- › Computers and electronic equipment
- › Trolleys
- › Spare cages and racks
- › Cage change stations
- › Microbiological safety cabinets

...and all other equipment used in animal facilities and laboratories
